PROFESSIONAL SUMMARY

Software Engineering student with hands-on experience building responsive, scalable web applications and user-focused interfaces. Strong foundation in frontend development using modern JavaScript technologies, with additional experience coordinating project teams and delivering structured outcomes. Actively seeking internship and junior developer roles to contribute to real-world products and grow within a professional engineering team.

EXPERIENCE

Academic & Personal Projects

Software Developer & web developer

- Build multiple web applications as part of coursework and personal learning

Software Developer

- Built multiple web applications as par of coursework and personal learning
- Collaborated on team-based projects following software engineering principles
- Applied system analysis, design, and documentation practices

Voiceover Artist

Freelance / Personal Projects

- Recorded clear and engaging voiceovers for digital content, presentations, and promotional materials
- Adapted tone, pacing, and delivery to match project requirements and audience intent
- Collaborated with content creators to meet creative direction and deadlines
- Developed strong verbal communication and storytelling skills

Project manager

Academic & Personal Projects

- Led planning and coordination of team-based software projects from concept to delivery
- Defined project scope, timelines, and task breakdowns to ensure on-time completion
- Facilitated communication between team members, ensuring alignment on technical and design decisions
- Applied basic Agile principles, including task prioritization and iterative delivery
- Monitored progress and resolved blockers to maintain project momentum

soft skill

- Communication & Presentation
- Team Collaboration
- Time Management
- Problem Solving
- Adaptability & Continuous Learning

TECHNICAL SKILLS

Programming & Development

- HTML5, CSS3, JavaScript (ES6+)
- React.js
- Node.js, Express.js
- RESTful APIs

Web Design

- Responsive Web Design
- Wireframing & Prototyping
- Accessibility Basics

Tools & Platforms

- Git & GitHub
- VS Code
- npm
- Chrome DevTools
- Vercel / Netlify

PROJECTS

E-Market Platform

Full-Stack Web Application

- Developed a responsive
- e-commerce platformceabling users

to bronze products, manage carts, and place orders.

- Implemented, RESTful APIs for product, and order management
- RLS ct, Oftuba, Node.js, Express, MongoDB Live Data HS

Tourist Map & Location Guide

Frontend Web Application

- Designed and built an interactive web plattar fornes for tourists to discsiyd hotels, resisturarts andjam locations
- Portued an usability, majcentration and mobile responsivenessd
- HTML, CSS,, SS, JavaScript, Map-OPI, Figma Live Github SS%

Bus Ticket Management System (HCI Project)

UI/UX & Frontend Project

- Designed a user-centered ticket booking interface to mdiam Get ime time, and improax.-passsingel:
- Create-d-user persona, bak-flows, and wireframes
- Applied Syzem-tonputer design tnd-moble-derponsiveness.
- Figma, HTML, CSS, JavaScript

ADDITIONAL INFORMATION

- Open to Internship and Junior Developer opportunities
- Strong problem-solving mindset and segerness to learn learn
- Comfortable working independently or in team environments
